BENEFITS OF GOATSKIN LEATHER

Slightly softer yet tougher than cowhide, providing enhanced comfort without sacrificing durability

Economical and strong with a smooth, fine grain that offers excellent tactile sensitivity

Highly flexible for improved dexterity during detailed tasks or prolonged use

Naturally water-resistant, making it suitable for damp or variable working conditions

For complete information on the standards and materials of our gloves and cut sleeves, please contact your Pyramex Sales Rep or visit our website at pyramex.com

REDEFINING COMFORT IN HAND & ARM PROTECTION

PMXTECK is a unique plated knit technology for gloves and cut sleeves that creates an exterior built for durability and an interior so soft and smooth you'll forget you're wearing them. With PMXTECK, comfort and safety go hand in hand.

The GCS52 is an ambidextrous, one-size-fits-most cut sleeve. We recommend you pair the sleeve with a glove that meets or exceeds the sleeve's cut rating of A5. Sleeves are sold by the each in a vend pack.
